

NECK LOOP RECEIVER INSTRUCTIONS FOR USE

This receiver is worn like a necklace and transmits sound directly to a hearing aid with a “T” setting.

How to Use:

Set your hearing aid to the “T” setting.

Place the receiver over your head so that the volume control wheel is on the right hand side of the unit.

Turning the wheel to the right will switch the receiver on and increase the volume level.

If you experience any problems with your receiver, please notify a member of staff and we will endeavour to rectify the difficulty.
